

### **Position as Professor of Medical Radiation Physics**

Linköping University is recruiting a full professor of Medical Radiation Physics. The discipline of Medical Radiation Physics comprises applications of ionising and non-ionising radiation within diagnostic imaging, radiation therapy and radiation protection. This includes medical use of X-rays, radioactive isotopes, magnetic resonance and ultrasound.

The position will be placed at the Department of Medical and Health Sciences (IMH), Division of Radiological Sciences. For a suitable applicant, association with CMIV (<http://cmiv.liu.se>) will be possible.

For applicants with appropriate qualifications, the position may be combined with a position as Medical Physicist within the County Council of Östergötland.

Applications are due **16 August 2010** to [registrator@liu.se](mailto:registrator@liu.se) or Linköpings universitet, Registrator, SE-581 83 Linköping, Sweden. The application should cite the announcement number **LiU-2010-00591**, use the CV template available at <http://www.liu.se/jobba/cv?l=en> (or <http://www.liu.se/jobba/cv?l=sv>) and refer to the official announcement (in Swedish) at <http://www.liu.se/jobbdb/show.html?3386>.
